

Enrolment Form

The Department of Education and Skills has developed an electronic database of primary school pupils called the Primary Online Database (POD) which involves schools maintaining and returning data on pupils to the Department at individual pupil level on a live system. This information will be used to evaluate progress and outcomes of pupils at primary level, to validate school enrolment returns for grant payment and teacher allocation purposes, to follow up on pupils who do not make the transfer from primary to post primary level and for statistical reporting. The database will hold data on all primary school pupils. The database will also contain, **on an optional basis**, information on the pupil's religion and on their ethnic or cultural background. The data required for POD is marked with an **asterisk ***. All other data we need for the efficient running of the school.

In order to assist with the gathering of data please complete the form in CAPITAL LETTERS and return to the school. This form will be retained by the school.
